THE SCHOOL FAIR

There could be no better advertisement for the Clareholm district than the wonderful display of vegetables at the School Fair last Friday. With a dry season, such as we have just experienced it was hardly to be expected that the exhibits would be of very high order. But to the surprise, of the large crowd who thronged the agricultural grounds, they were but little inferior to the excellent showing of 1917, the banner crop year of Alberta.

The first prize was won by the Badger Plate exhibits and it would be difficult to find better samples of vegetables anywhere in the world than those raised by the boys and girls of the above school.

The prize for the pupil having the highest number of points in all classes was won by Mildred Husand, of Grain Hill. Lawrence Strang won the first for having the best garden and best exhibits among the boys, while Isobel Howell won a similar prize for the girls.

The exhibits of cooking and needlework by the girls were told by these capable of judging was very fine and the room in which it was shown was crowded throughout the day.

A large number of hogs, calves and poultry which the boys and girls had fed and cared for were also exhibited and words of praise were given by Mr. Elliott, of the School of Agriculture, Olds, as to care and skill that must have been used to produce such excellent results.

The Department of Agriculture for the province is doing a great work for the future of the province through these school fairs. Farm boys and girls are now thinking of farming as the most honorable of callings. The scientific methods of production which they are taught makes farming the most interesting of professions.

The next generation of farmers will be the most intelligent farmers the world has ever known. We believe that time is not far off when the census of farm lands into other labor will cease, not only because farming is becoming more interesting but because it will also become more remunerative.

Prof. Hooper has spent most of his summer in visiting and instructing different schools who have taken part in the fair and he is to be congratulated on the wonderful success achieved.

S. O. S.

Those who have interested themselves in the S. O. S. movement were much gratified at the unexpected success of the sports at the school fair last Friday. There were 34 S. O. S. boys in Clareholm district and two from Grain Hill took part in the competitions that were put on. The harnessing competition was keenly contested and it was surprising even to some of the old farmers the speed developed by the boys in harnessing and hitching up the teams. Some of the contestants were very young and not only the spectators but the boys themselves thoroughly enjoyed the fun.

Previous to the contests addresses were given by Prof. Hooper, Principal Stevens, Mrs. McKinney, M.L.A. Mr. Elliott and Mr. McKinnon, the S. O. S. secretary for southern Alberta, all of which were greatly appreciated by the large audience that gathered in the open air.

Group and Children's Photos a specialty. Amateur work done. All work finished promptly and satisfaction guaranteed. Call and see us whether you want any work done or not. Sun or rain, Photos took like you look—or better.

EDLUND & FRASER

After the contests the badges of honor given by the Food Board were presented to the boys who had landed in their certificates from their employers showing that they had served three months on a farm. The names were read out by the local secretary, Mr. R.K. Peck, and as the boys stepped forward in their turn, the badges were fastened to their coats and words of encouragement given them by Mr. Walker of the Bank of Commerce, Mr. Oats, of Staveland, Mr. Woback, Mr. Grace and several others who assisted in the presentations.

It is safe to say that these badges will be treasured by these boys. In years to come it will be an evidence that they did their bit in the great world struggle for the liberty of the human race.

The prizes were awarded as follows: 1. Harnessing and hitching a two horse team to a wagon.

1st, Sweater, Geo. Barr. Donated by Mr. C. Braren.

2nd, Suit of Union overalls, A. McKenzie. Donated by W. Knight and \$2.00 donated by Mr. Wynn.

1st, Geo. Barr, farm gate valued at \$8.00. Donated by O. D. Walker, of Crown Lumber Co.

2nd, \$3.00 Fred Tobridge.

3rd, \$2.00, Lawrence Lyndon. Donated by W. D. Walker and R. Shearer.

4. Getting up supposedly at 5 a.m. at the call of the farmer, pulling on a pair of overalls, rushing out and saddling a pony, and riding once around the ring.

1st, Milford Grace. Alarm clock. Donated by J. M. Soby.

2nd, Geo. Barr, pocket knife. Donated by Granum merchant.

3rd, John Parrier, dress shirt. Donated by Granum merchant. Judge, R. Stebbins.

4. Getting washed and combed for supper.

1st, Geo. Barr, \$2.00.

2nd, Lloyd Nowlin, \$1.00. Judge W. J. Elliott, of Olds Agricultural College.

Boys who have not received prizes won should call at the local secretary as early as possible.

MENNONITES ARE SUBJECT TO THE SLACKER TREATY

A special despatch to the Lethbridge Herald, on Thursday, from Ottawa, gives it on the authority of Hon. J. A. Calder, that Mennonites coming into Canada from the United States, who are subject to military service, in that country, are also subject to service here under the terms of the recent "slacker" treaty between the two countries.

The British have made, further important progress towards Cambrai, having captured the towns of Havrincourt, Trecessart and Mouvaux. Approximately a thousand Germans were made prisoners in the operations.

The Bolsheviks have practically been driven out of Siberia. The Allies are rapidly moving westward.

EDITORIAL

There is no institution that is doing a nobler work than the Bible Society, and extremely unfortunate, it is that so many of our business men and farmers, missed the opportunity that was given them last Sunday to hear Mr. Marr give an account of what the organization has done and is still doing to disseminate ideas throughout the world that will regenerate the race.

It is difficult to understand the reason for the indifference of so many of our citizens to anything that tends to uplift and make better men and women. Educated men can come with their messages and the majority will not even step out of their door to hear them. It is true that most of us are no better than sheep? Are we fulfilling our mission in the world to a lesser degree than the hog or the pig? Is a full belly as a lot pocket book all a man needs in this world? Some evidently think so. It is to be hoped that the great events, transpiring in the world today and the tremendous sacrifices that are being made in the world struggle between right or wrong will awaken us from our lethargy before it is too late.

An appeal is being made during the coming weeks for funds for the Bible Society. Many who attended either of the three church meetings where Mr. Marr spoke, gave liberally and it is to be hoped that those who were not present at these meetings will receive the collectors with courtesy and give generously.

GIVE LIBERALLY

Last Sunday Rev. Mr. Marr occupied the pulpit of the Methodist, Presbyterian and Nazarene Churches. His appeal was for the Bible Society, to enable it to continue that good work that it has been doing for the last 120 years. It has already circulated over 25,000,000 copies of the scripture. Last year's circulation was 10,162,413 copies, over 27,800 for each day of the year. It has issued the Bible in 497 languages. It prints Bibles for the Church of England missions in 139 languages. The Presbyterian Church receives Bibles from the society in 134 languages. The Methodist Church receives Bibles from the society in 99 different languages.

Since the war started it has supplied 5,000,000 copies for the soldiers and of these, 370,000 have been given to our own Canadian boys. No more worthy cause has ever appealed to the public for financial support.

The names of the subscribers to this fund will be published in the Review-Advertiser from week to week, and we sincerely hope that Claresholm will be second to none in its liberality to this fund.

The following appeal for subscriptions for soldiers, was made recently by the Family Herald and Weekly Star, Montreal:

"In two most christian papers published in London every week we are letters from the Salvation Army, the Church Army and other workers who have been or are fighting side by side with the soldiers in the trenches since the war began.

"They all agree in saying that, of the soldiers who are in the trenches for the first time, only one in four or five has any copy of God's word."

"They all agree in saying that, there are two scenes along the trenches never to be forgotten; the first when there is a lull in the fighting and the supply of scriptures come along, to give the up-reaching eager hands and get each a copy of God's word, the other sight never to be forgotten is the look of disappointment on the face of those who fail to receive a copy because the supply is exhausted—always exhausted."

"They all agree in saying that where they have distributed a hundred copies, they could have distributed a thousand copies if the funds had allowed."

"They say that oftentimes there is only one copy in a section of a trench and the owner lends it to his comrades, and in engagements that sometimes have lasted two or three days, when the thoughts and feelings of the four fellows are such as we cannot well imagine, there are several instances when the owner of the only copy of God's word has torn his copy from leaf and distributed the leaves among his comrades that each might get some word from God that might bring him fresh courage, patience, and hope."

"Probably today not one quarter of our own Canadian men have Bibles. Testaments left to them, and they need them, and need them as we can-

not imagine who remains among our home privileges.

"You want to help of course. No one would think of depriving a soldier of comfort, mental or spiritual, and a Bible, money goes a long way when accumulated and put into the hands of a great society which publishes and distributes Bibles of prices as marvelous for their cheapness."

"It is such a little thing to do to send a Bible or Testament overseas, but how great will be the result to the soldier who is really hungry for the word of life."

The British and Foreign Bible Society has distributed over eight million copies of the scriptures in seventy-five languages, and of these more than half have perished in wet trenches, or have been lost in battles.

For the province of Alberta, kindly forward contributions to keep this good work to Rev. D. H. Marr, District Secretary, 706 Centre St. Calgary, or to our local secretary Jas. McKinnon.

SOME FACTORS IN THE MAKING OF A NATION

In a recent western paper a protest was raised against the granting of special privileges to a body of men who wished to settle in Canada. They were leaving their present country, and the government of that country insisted that they should bear the common burden of the country as other citizens were doing. That country has been founded on the basis of liberty and equality. The preservation of that liberty, and the equality of every citizen of that country. The liberty of that country along with the whole world had been menaced and the manpower of the country had been called upon to defend hearth and home. Along with others these men were called upon to fight these men, leaving their present country and wish to settle in Canada. Before doing so, however, they wish the government of Canada to pledge itself that in case of war in which Canada might find itself forced to take part they shall not be called upon to fight. The astonishing thing is that in face of all the difficulties that have surrounded the Canadian government in the raising and maintaining of an adequate army in Europe, the government has been unwilling to grant these men the special privileges to these men in this respect that in case of war they will be called upon to accept the common burden of every citizen of that country. In the face of the present day conditions it seems almost incredible of belief that they fact remains that into this country there are coming legions of men, to be trained in military service as a principle. They are coming on the understanding that they will not be called upon to fight in any war which the country may even be forced into. In other words they ask to be relieved of what is the duty of every able bodied man in every civilized country. The Militia Act of Canada provides that in case of emergency every able bodied man may be called upon to help in the defence of the country. We most emphatically protest against any body of colonists being granted exemption from what is the duty of all men. The granting of special privileges to any class of men is a principle that should be explored. All citizens of a country should be equal so far as the law of the land is concerned. There should be no granting of special privileges as in the case of Ecclesiastical Law in Quebec. Nor should people such as the Doukhobors or religious bodies which the Menomonees be granted exemption from Military Service when in the interests of the country it is deemed necessary to fight. With out the granting of special privileges to any class we are faced with almost insuperable difficulties in the attempt to weld into one homogeneous whole the heterogeneous elements of western Canada. We are faced on all sides by small groups or communities of people who simply endeavor to reproduce or far as possible the atmosphere and conditions of their country from which they came. We have little Germanies, or little Russias, or little Finlanders, or little Ukrainians, all through the country and these in themselves constitute quite a problem without the granting of special privileges. They constitute a problem because to a large measure they resist the process of assimilation. They do not wish to lose their nationality and become Canadians. In their communities they speak the language of their old country, where possible they have their separate schools; and into the larger life of the country they rarely enter. How to facilitate the process of assimilation and out of these various elements form a Canadian nation is indeed a problem of life, and one that is blind and foolish not to see and recognize the good points in the various races and bodies which are making their way into Canada. We recognize that in the making of a nation there are many things required. The quick incorporation of one race is as necessary as the slow methodical industry of another. We realize that the

civilizations of other countries are made up of many contributions which have come from many sources and in the case of England have, indeed come from various races who have gone to make up that nation. The likelihood is that a similar process will go on in western Canada. It has been the genius of President Wilson to have put the case for Democracy in such a succinct manner before the whole world. He has also been called upon to face a similar problem to our own. One realizes more clearly than during the war he should to realize that the people of the United States is made up of how the different races in Europe are bound to reflect themselves in the United States and in one of the most statesmanlike of his many statesmanlike speeches during the war he said to the many peoples who made up the American nation that he could not wish with them had come from other countries to find a home in America to forget their old home lands nor was he ungrateful of the many contributions to progress and civilization which the other countries had made but those who came, from other lands to make a home in America should realize that in that future they were to think and speak and act as American citizens or as Germans or French or British or Russians or whatever they might have been in their old land. Some such thing needs to be said to our own communities that make up the population of western Canada. We welcome to our land all who are trying to find a better home, but we want them to come on the basis of equality and not on the basis of special

privileges. That equality must be interpreted to mean equality before the law as well as equality of privilege. Men have no right to ask that the common burden of protecting a country should fall on others than themselves. It is, of course, possible, that religious bodies, such as the Menomonees, might argue that warfare preparations are not the best defence against war since obviously no hostile intentions may be instigated to them. Such arguments, however, would not save the sparrows from the attacks of the hawk nor would the mouse be immune from the hostile intentions of the cat, because of his own peaceful intentions. In the case of the present war no peaceful or neutral policy would have prevented either Belgium or Switzerland being made the pathway to France and so the war. The incidental horrors of war. Much though we dislike, the saying and doing, there is a great deal of undesired truth in the saying "If you wish for peace, prepare for war."

Some of us are hoping that Canada will on day be a great nation and able to take its place among the nations of the world. The way to such greatness lies, however, through united effort and common purpose and an intelligent understanding of world conditions. It is doubtful whether we can ever arrive at any united effort or common purpose until all the warring communities suffering all the human, French, American, etc., have been merged into one Canadian nation having one law for all, one language for all, on a basis of Liberty, Equality and Fraternity.

Royal Air Force

For the purpose of preparing statistics, the total number of flights and casualties throughout the entire R.A.F. during a certain period was obtained. For the purpose of comparison, similar statistics were obtained from training squadrons operating in England. In the R.A.F. Canada there were 34,223 flights, with 13,566 hours flying, during which there were 59 crashes, 36 of which were admissions to hospitals. The English statistics give 5,000 flights, with 4,000 hours flying, during which there were 58 (practically the same number) of crashes, 16 of which admissions to hospital.

From the above figures you will see that for four times as many flights, with three times as many hours in the air, the number of Canadian casualties is practically the same as the number of English casualties. You will note that the above flights in Canada cover approximately 812,960 miles, or 34 times around the globe, this we have one fatality for 112,890 miles, or five times around the

globe. The conclusions to be drawn from the above figures are so evident that no further explanation is required.

LET'S KEEP AN EYE ON MEXICO

From "Greater Town"

No doubt Uncle Sam's secret service men are trying to keep tabs on our evasive neighbor beyond the Rio Grande. The man up in a tree gets great things out of the clouds that stir the sleeping Mexicans. Mexico claim to be neutral in all matters pertaining to war, but so-berthinking America find it somewhat difficult to approve of "neutrality" that leads the presidents and others in high places to be continually forgetting the law her birthdays and other occasions. Mexico in a glittering example of national ingratitude. If it were not for the protecting influence of the Monroe Doctrine and Uncle Sam's unswerving support of its provisions Mexico would have disappeared down the insatiable maw of German conquest and despotism years ago. And a fine return for it all Mexico is making these days. Some of these times parties will cease to be a virtue; it will snap audier and in the bytask Mexico will get a few things that have been a long time coming.

More than a few good Americans declare Mexico is lousy with German money and sinking of German propaganda. Many a reeking trail of suspicion has been picked up and noised about, enough to bear about the world in the haze of intrigue beyond the Rio Grande. It is comparatively a simple matter for Germany to attempt to sneak over to this side by the light of the stars, start a bit of hell and heat it back to the protecting shadow of the border, only to disappear. The south is facing a new dreadful peril in the shape of the pink blot which has suddenly appeared over large areas in Texas. This pink pest is infinitely more destructive than the common boll weevil, which is bad enough; it bears about the same relation to the boll weevil that the Han baby killers bear to the Cross carriers. I have seen the border from Mexico, of course, in sight of Uncle Sam's quarantine restrictions, and I have seen the same appearance in different localities is significant. Texas people look it up with German propaganda. One can pass the border, believe they have the correct

SCHOOL NOTES

The school opened on Tuesday, Sept. 3rd, with the following teachers on the staff:

Principal, O. Williams, B.A.; Vice Principal, Miss Mann, B.A. Miss Mann will teach mathematics and science in the High School. Previous to her present appointment in Clareholm Miss Mann was the principal of the Rimbly Consolidated School. She has also taught in the Calgary schools.

Miss Clinton, B.A., who has charge of the languages and rhetoric, is a graduate of Queens. Before coming to Clareholm Miss Clinton taught languages at Okotoks.

Miss Reist, teacher of grade VII has six years experience in Alberta, one in after-school. She holds a first class certificate.

Mr. Alex Shapson previous to teaching in Clareholm has experienced a year's teaching in Ontario. He holds a first class certificate and has charge of grade VII.

Miss Hines has taught in Alberta for four years, and during the last three years was principal in the VI work. She holds a second class certificate.

Miss A. Ramsay, of Red Deer, has had four years experience in Alberta schools. This is her second year in Clareholm. She holds a second class certificate and also has special qualifications in music.

Miss Thompson, teacher of grade 2, has specialized for primary work. She holds a second class professional certificate, having taught in Alberta for five years, this being her second year in Clareholm.

Miss Porter has also specialized in primary work, taking the special course for primary teachers at the summer school. She has taught for six years in Alberta, having successfully taught the primary grade in the last three years in Clareholm.

The enrollment in the different grades is as follows:
Grade I, 43; Gr. II, 37; Gr. III, 27; Gr. IV, 22; Gr. V, 21; Gr. VI, 21; Gr. VII, 28.
High School: Gr. IX, 23; Gr. X, 19; Gr. XI, & XII, 17. Total 57.

When the boys return to school after harvest, the probable attendance in the High School will be as follows: Gr. IX, 28; Gr. X, 23; Gr. XI, & XII, 26. Total 75.

This number justifies the school board in securing an additional teacher for the High School. Even when the new building is being completed the accommodation will be taxed to the limit.

Parents of students in Grades IX, X and XI are requested to co-operate with the staff in inspecting the home work records. Ready attendance can only be obtained in this way, and as no student will be promoted in future, disappointment on the part of the parents and students will be avoided if parents will see that the home work is properly done.

Mr. W. D. Moffatt has commenced the music course, in the school. This course is being given to all grades from I to IX. The examinations will be given on this subject at Christmas and Easter. Music will be treated as a class subject and all students will be expected to pass before promoted to the next grade.

HAZEL EXPOSED ABUSE OF THE PRISON SYSTEM

The following comments are taken from the Moose Jaw Daily News.

"Treat a man like a criminal and you'll make a criminal or him, treat him like a car and you'll make a car of him. The first thing that strikes the eye when you enter the prison is the name of Percy Hager in his address her, last Friday evening.

Mr. Hager, once a prominent Winnipeg lawyer, implicated in the famous Krafchenko escape and now prisoner, brought the first impression of prison reform to this place, and his audience, was stirred by the convincing tales of hardships of convicts in prisons of Canada. It was not so much what he said but his manner of speaking; his clever witicism in telling of his part in the escape; his impressive manner in driving home to his audience the tales of ill-treated convicts that moved men from laughter to the verge of tears.

He reviewed the story which three front pages were spread all over the province of the escape of the bank manager, the murderer of the bank manager at Plum Coulee, by the famous "bad man" Krafchenko, and the fact of his being chosen as his lawyer in 1913.

He admitted his part in aiding in the escape of the bank manager, and he had plotted together with Buxton, Reid and Westlake as to how the escape was to take place, how he had at last been arrested and sentenced to life in Stoney Mountain penitentiary.

Farmers are Stopping the Profit-Eating Leaks This Year

Comparatively few farmers fall or lose heavily because of misfortune such as fire, wind or drought. The majority of failures and losses are from combined little leaks, and it is the many little leaks that are being studied and stopped.

HERE ARE SOME OF THEM—Ponding Waters, Diseases from Unsanitary Buildings, Unprotected Machinery. There are others but they are enough to kill the profits on any farm.

THE REMEDY—Concrete-Gravel Foundations and Floors, Concrete Barn and Hog House Floors, a Machine Shed. None of them are expensive and each will quickly pay for itself. Call and let us give you prices.

"Better conditions in the prisons," he said, "will mean that those who are unfortunate enough to fall, will be put by themselves and treated as boys, and not put in with experienced cracksmen, thus learning the profession of blowing safe—Rex Theatre.

The Profiters

He is after prison reform in Canada and if half what he told is true, we need prison reform. The prisons of Canada should not be places to make bad men worse, but schools where the means of making them realize their wrong doing and when their time is
